solitor for the department will be to represent the province in special inquiries or on commissions arising from time to time, to conduct the more important provincial litigation of a civil nature and also to appear for the crown in criminal cases in various parts of the province where it is found desirable to provide local counsel with assistance.

Mr. Gray is a well known Lethbridge lawyer of extensive experience and recognized ability. He came here from Macleod some years ago and is a member of the law firm of Johnstone, Ritchie and Gray.

Mr. Gray's appointment is one of many made from Lethbridge by the provincial government, including R. A. Smith, deputy attorney general, R. J. Dinning, liquor commissioner, and Treholme, Dickson, inspector of legal offices—Lethbridge Herald.

ADDITIONAL LOCALS

Rev. W. J. Merrick was in Lethbridge Monday to Tuesday evening of this week attending a conference of the South Alberta Deputies.

The Women's Institute is planning an Empire Day card party and dance for the evening of May 23rd. They are assisting in some local improvements to the town square and the cemetery and the proceeds are to be used for these.

The members of the Women's Institute are anticipating a pleasant and profitable afternoon Tuesday, May 20th, when they will be the guests of the Granum Women's Institute. The local society hope, to have the pleasure of entertaining the Granum Institute in June.

The death occurred on Wednesday, May 7th, at 7:30 p.m., of Katherine Jane Schnarr, aged 6 years, daughter of Mr. and Mrs. Sandy Schnarr, Macleod. The funeral will be held on Friday at 2:30 p.m. from Mrs. Alf Dixon's Residence on 22nd Street, thence to the Methodist Church, where service for the dead will be held, and from where the funeral procession will proceed to the Union Cemetery, where interment will take place.

The police request that attention be drawn to the following Section of the Motor Vehicles Act: "Section 22 Sub-section 1.—No male person under sixteen years of age, and no female person under eighteen years of age, shall drive or operate a motor vehicle upon any public street, highway, road, park roadway or driveway."

MACLEOD LADIES ORGANIZE JUBILEE AUXILIARY

A meeting of the ladies of Macleod was called for Wednesday afternoon May 7th, by the Jubilee Committee. A large and representative number gathered at the Town Hall and a Jubilee Auxiliary was organized. The object being to assist in every possible way to make the coming celebration a huge success.

The officers elected were:—
Pres.—Mrs. S. Heap, Vice Pres.—

"They're The Finest Body of Men I've Ever Seen"

The Indian found in the Mounted Police, not an enemy who tried to rule them with an iron hand, but trustworthy friends and brothers, from the great White Queen, who had come to help them and not to hinder.

Of the dangers and trials this noble corps faced, only half will ever be told, but the result of their wonderful effort to establish law and order in an unknown lawless land speaks for itself Western Canada of to-day. Its great populace of peaceful citizens revere the memory of the North West Mounted Police, and thank them.

There are many of those brave old originals in the Police fifty years ago, still alive, many of whom reside in Alberta and other parts of Canada, and it is the ambition of the Mounted Police Veterans Association that all ex-mounted policemen meet in Macleod on July 1st, 2nd and 3rd of this year to celebrate a glorious Jubilee.

The residents of Macleod joined forces with the Police Veterans Association, and other organizations, and decided to present to the people of Canada, a three day Jubilee celebration depicting in every way possible the West fifty years ago, and its growth during that time.

There will be parades, pageants, and carnivals, showing the cowboy period to the homesteader, from the homesteader to the present time, it will be the greatest historical pageant ever presented.

Macleod on these three days will go right back to the old early days, everyone will be allowed to have a real old time thing, although the ever watchful eye of Scarlet and Gold will be keenly following the actions of all would-be crooks, tin horns and bad men.

Can you imagine three joyous days in a real old Western town? There will be cowboy sports, roping, bucking, bull-dogging, wild steer riding, cowboy dances, barbeques, Indian villages and festivals, in fact every thing that appertains to the early wild and woolly West, with hosts of those brave stalwart pioneers, that made Canada what it is to-day.

Splendid prizes are being offered in all Stampede events and races that will attract the pick of a bronco buster and ropers in the Continent. Macleod expects to have an influx of seventy or eighty thousand people on these three days.

The Macleod Jubilee, (July 1st, 2nd

and 3rd), is going to be the greatest event of the decade. It is an historical event that no person can afford to miss.

Already the filming of these great features, together with a scenario from the pen of that well known ex-Mounted Policeman Captain Cecil Denny of Edmonton, Alberta, has been arranged by one of the largest moving picture concerns in the United States. The story includes the coming of the Mounted Police, the escapades of the whiskey runners and bad men; the Redskins, his progress and advancement; thrilling episodes such as the shooting of Sgt. Wild; the hunt and capture of Charcoal; the West before the white man came; the period of the cowboy, the good old "Round-Up" days; signing of the Indian Treaty at Blackfoot Crossing; this film will be the greatest and most wonderful realistic production of the wild and adventurous times of the early west, ever shown on the silver screen. You can personally witness the filming of these great events in history, by attending the Macleod Jubilee on July 1st, 2nd and 3rd.

The Macleod Jubilee is heartily endorsed by every member of the Mounted Police Veterans Association, and every old timer in the country, such men as Lieut. Governor Brett, Sir, Frederick Haultain, Judge C. E. D. Wood, Commissioner Cortlarst Starnes of the R. C. M. Police, Commissioner W. C. Bryan of the A. P. Police, P. C. H. Primrose, T. H. Stoddard, D. J. Grier, Pat Burns, Geo. Lane, Colonel Walker, R. Tucker, and every member of Old Times Associations in Western Canada. They're all coming to Macleod for the Jubilee.

As youngsters we used to dream of Buffalo Bill and Cowboys, those days of glorious adventure. Let your dreams of childhood become a reality for three days, see the painted red skin in real life, brave scouts, daring cowboys, dauntless riders of the plains, buffaloes, broncho twisting and roping. Everything of the old days of the West, will be realistically depicted in Macleod on July 1st, 2nd and 3rd. The same old log houses, the same old dance halls, and what is more wonderful the same old people. Can you realize it Old-Timer? Can you imagine it Young-Timer?

The Railway Companies are putting on special excursions for the three days all over the continent. Broadcasting Radio Stations are broadcasting the event over the air.

Among the hosts of heroes, the Empire calls her own. Embazoned white their names shall be, for Country, King and Throne. Their deeds of gallantry stand out, their daring held no leash, Canada thanks you, gallant few—The North West Mounted Police.

No longer do they ride the plains, those Veterans of yore. But the echo of their bravery, resounds from shore to shore. Some of them have journeyed on—may their souls rest in peace, And God Bless all the living of—The North West Mounted Police.

LOOKOUT, JACKIE, MICKEY'S AFTER YOUR LAURELS

Juvenile Marvel Has Fine Role in Allan Dwan's "Big Brother"

Jackie Coogan has a rival. In the person of little Mickey Bennett, seven and slightly freckled, the screen has a new child wonder.

We leave the picture public to make its own decision in this matter after viewing "Big Brother," an Allan Dwan production of the Rex Beach story, coming to the Empress Theatre next Monday only.

Mickey not only is the leader of a gang in this picture but he is fast becoming the leader of juvenile screen players. Ever since he essayed to be young Thomas Meighan in "Cappy Ricks" two and a half years ago he has been in great demand in kid parts. The good luck star that follows Meighan whom he emulated in his camera debut has been shining over Mickey ever since. In the short space of time that he has been on the screen he has played in more pictures than many of the recognized luminaries of the screen. Not long after he fell out of a tub into a lake near Boston for scenes in "Cappy Ricks" he played in "Marriage and Morals," with Tom Moore, who he is now playing with in "Big Brother."

REMEMBER this Jubilee is commemorating the arrival of the North West Mounted Police to Western Canada, 1874—1924.

NORTH WEST MOUNTED POLICE

It is no idle boasting, that Canada makes to-day
That lasting law and order, on Western plains hold sway,
No evil reigns of terror, we live secure in peace,
All honor to that noble Corps—The North West Mounted Police.

The "Mounted" claimed no honors, nor scroll of Herald's pen,
They nobly earned and held it, that envied title "Men".
They numbered but three hundred, sing their praises, never cease,
The West to-day reveres you—T—The North West Mounted Police.

No longer do they ride the plains, those Veterans of yore. But the echo of their bravery, resounds from shore to shore. Some of them have journeyed on—may their souls rest in peace, And God Bless all the living of—The North West Mounted Police.

ACTIVE BASE BALL SEASON IN SIGHT

Baseball is off to a real good start in Macleod, and with every promise of a real snappy baseball schedule. There are three teams in the local league known as the "Wolves," under Ray Baker; the "Tigers," under J. Marks; and the "Cubs," under Ross Purcell; and these three aggregations are going to struggle hard every Monday and Thursday evening for supremacy. From the best of these teams a local team will be formed for the purpose of meeting all comers whether at home or abroad, providing in every case a return match is given.

Joe Marks, the local manager claims Macleod has an excellent bunch of local talent and his challenge during the past few years has stood good, and with the display of ball shown last Monday evening it's likely to.

Following are the teams in the local league:
WOLVES.—R. Baker, (Manager), Clarke, Kirk, Murphy, Davis, Ringland, Dowsett, Staines, Meers, A. Swinarton, Watson, and Butler.
TIGERS.—J. Marks, (Manager), Dillingham, Webb, Dean, Brooks, Charlton, Winscomb, R. Hamilton, Webb, Graham, Holmes, Dowson.
CUBS.—Purcell, (Manager), Long, McGregor, McLeod, O. Kirk, Bill Hamilton, McLenn, Kyle, Russell, M. Dean, C. Swinarton, J. McGregor and Panter.

The Wolves and Cubs play on the following dates: May 5th, May 15th and 26th, June 5th, June 16th, June 26th.
Wolves and Tigers: May 8th, May 19th, May 29th, June 9th, June 19th, June 30th.
Tigers and Cubs: May 12th, May 22nd, June 2nd, June 12th, June 23rd.

BOARD OF TRADE MEETING

At the regular meeting of the Board of Trade held in the President's Office last evening, the chief matter brought up for discussion was the supplying of water from the Town authorities for the cemetery. Both Dr. Kennedy and Dr. Farnet spoke in favor of the scheme, and a motion was carried petitioning the Town Council to have water piped down from the water main to the cemetery.

Mayor McDonald, who was present at the meeting, promised the matter his full consideration.
It was the wish of the meeting that a letter of appreciation be forwarded

to H. C. Winter, the retiring Secretary of the Board of Trade, for his past two years service expressing the regret of the members of the Board of Trade on his resignation, and thanking him for the efficiency of work done while in that very important position.

The resignation of Vice President Harris, who has accepted a position in Edmonton, was accepted.
President Farnet informed the meeting that he had made arrangements with all the schoolboys to engage them next Wednesday for the purpose of raking up and burning all the rubbish in the local cemeteries, each gang of youngsters to be under the leadership of an adult.

DAROLD W. DAVIS APPOINTED VENDOR FOR MACLEOD

Macleod's vendor is Darold Watson Davis, brother to Sheriff Davis. He is a returned man was among the first to go overseas. He was sent to France and returned to England where he completed his flying course, after which he returned to France and attached to one of the Flying Corps. His machine was shot down inside the German lines, he was made a prisoner of war, and was held until the armistice was signed, when the exchanges were made, and he was found to be alive after thought dead for some time. He did not receive careful medical attention while a prisoner, and since his return has been in the hospital most of the time. He returned home a few weeks ago from the hospital, and last week was appointed vendor for the Town of Macleod. This week the Vendors are to meet the Commissioner in the city of Calgary, to receive instructions as to their duties.

The Vendor's store will be located in the old Hudson Bay Company's store on 24th St. west, and is expected to open about June 1st.

W. K. MACKIE ELECTED TO COUNCIL BY ACCLAMATION

W. K. Mackie was elected on Monday, May 5th by acclamation to fill the vacancy on Macleod Town Council created by the resignation of Dr. Mills.

Mr. Mackie has been a resident of Macleod for a number of years past, and being well acquainted with the town's civil necessities and conditions, will doubtless be able to fill the position of councillor with satisfaction to the ratepayers.

HOW "SQUIBS" BECAME A LADY M.P.

Mrs. Philipson and a Film Coincidence

Quite a romantic coincidence in connection with Mrs. Hilton Philipson's election to Parliament is revealed by the exhibition of Betty Balfour's latest film, "Squibs, M.P."

The character of "Squibs" was made famous in cinemas by Betty Balfour, but originally it was taken from a stage sketch in which Mrs. Philipson, then Mabel Russell, appeared as "Squibs," and which was brought by Messrs. Welsh, Pearson & Co., Ltd. the film producers. The sketch was not actually filmed, but the character of "Squibs" was developed as the central figure in a popular series of British films, and long before the possibility of Mrs. Philipson becoming a member of Parliament was ever contemplated, Mr. George Pearson, the film producer, wrote another "Squibs" story which he called "Squibs, M.P." and which dealt humorously with the adventures of this amusing young Miss getting into Parliament. Subsequently the Law Courts created a vacancy, and many votes flowed into the ballot boxes at Berwick to make Mrs. Philipson—some time "Squibs"—an M.P. A real life romance indeed! At The Empress Friday and Saturday.

"DEACON DUBBS" COMEDY

Don't forget the "Deacon Dubbs" three-act comedy at the Empress Theatre Tuesday, May 13th only. This company comes highly recommended, and doubtless will draw a record attendance. Don't forget the date.

THE KING CAN DO NO WRONG

After a puerile, violent demonstra-
tion in court, which proved beyond all
shadow of doubt that Harry K.
Thaw's mind is still clouded and un-
controlled a jury late Tuesday night
gravelly brought in a verdict that the
millionaire murderer was quite sane
and entitled to his liberty.

Over in Europe they once had an
axiom, "The king can do no wrong."
That axiom has been discarded
long ago in this country.
Is it true, as people are saying,
that in the United States, money is
king, and that the above archaic,
obsolete European axiom has been in-
voked in the case of Harry Thaw?

APARTMENT LIFE IN 1924

Following the recent suicide of a
dependent Chicago father who could
not find an apartment in which he
could bring his children, a big
Chicago apartment house yesterday
swept out this sign:

Children welcome. Twenty-five
dollars and a cradle to each baby
born in this building.

good business man.

gest psychological and sociological
factors of the century. By cutting

down housework and making babies
burden, it has forced some women in-
to public life and some into boredom
that results in mischief and trouble.
America is largely an apartment-
dwelling country. If apartment life
is going to continue to have a ten-
dency to cut down the birthrate and
make restless, discontented women,
there is going to be a violent reaction
to it sooner or later, in which apart-
ment-house owners will suffer.

The apartment-house owner who
meets this condition and solves it by
providing his place open to the
development and growth of families
is simply protecting himself against
an inevitable wave of aroused public
opinion.

THE INSANITY PLEA

Since insanity has become, in this
country and the United States, the
favorite defense against murder
charges, the recent Thaw verdict
should provide a strong argument
why the Canadian legal machinery, at
least, needs considerable amend-
ment.

A man is arrested and charged
with murder. His case comes to
trial. His counsel asks for a ver-
dict of "not guilty" on the plea that
the prisoner is insane.

If that verdict is returned, as it
is in scores of cases, the murder charge
is over and done with. The prisoner
is simply shut up in an asylum. A
few years later he is released into the
world again.

This procedure is iniquitous.
If, in case of a murder charge, the
defense proposes to enter a plea of
"not guilty" on grounds of insanity
notice should be required to be filed
before the trial. Then, before the
trial, a commission should sit and
definitely determine the prisoner's
sanity. If he is found insane he
should be committed to an asylum
without trial. But at the same time,
the murder charge would still hang
over his head.

Murderers who go insane con-
veniently and then become sane
again conveniently once they are out
of danger, would not cheat justice so
easily under this suggested pro-
cedure.

Men who commit murder whil-
"temporarily" insane are always
dangerous to the community. There
is no cure for this type of mania. If
one of these brainstorm murderers
can "recover" sufficiently to be re-
leased from an asylum after a term
of a few years, it is a pretty sure
thing that his original insanity was
faked and he should stand trial for
his offense.

THE LATIN AMERICAN
PROBLEM

Whether the people of this
hemisphere are to live together dur-
ing the period of their historic life in
peace, understanding and mutual
helpfulness, or whether they are to
inherit the international vicissitudes
of Europe, will depend largely upon
the kind of development that takes
place in Latin America during the
next century.

There are four possible directions
in which Latin American countries
may be developed:
1. By infusion of population and
capital from Europe.
2. By development of strong
nationalism within these countries
themselves.

3. By the wholesale invasion of
oriental, particularly the Japanese,
people.

4. By Anglo-Saxon expansion
spreading from Canada and the
United States downward.

Number 1 is not a strong prob-
ability. With Canada still crying out
for population, and fully able to ab-
sorb Europe's surplus for many years
to come, it is hardly likely that
European immigration will even be-
gin to encroach upon the great
South American wilderness.

Number 2 is also unlikely. National-
ism, upon civilized standards, is de-
creasing rather than increasing in
South America. Migration from Eu-
rope is so slow that marriage with
individuals of Indian blood is on the
increase. Consequently Indian racial
characteristics are coming more and
more to the fore.

Number 3 is a probability. Japa-
nese are welcome in South America.
The climate is congenial. The re-
sources are immense. If more power-
ful Pacific nations fail to encourage
Japan in her ambitions to become a
great industrial nation, and bar her
surplus population, it is more than
likely that Japan will content her-
self with a colonizing rather than an
industrial national policy and
swarm her hungry millions into
South America. The consequences of
such a policy would be tremendous
and menacing.

Discouraged in her industrial ambi-
tions and with room to develop a
fighting population in the New World,
Japan would soon, in the ordinary
course of events, lose any tendency
she has at present to develop intensi-
vely along industrial lines, and be-
come a purely colonizing nation with
ideals of conquest.

Number 4 is an alternative with a
vital element of time. Canada is
still a sparsely-populated country.
The United States is not yet un-
comfortably full. Unquestionably
the United States will some day
achieve such a tremendous popula-
tion that she will grow hungry and
expand her territories. But when will
that day come?

The future of the Pacific probably
rests on these issues:
1. Will Japan become an industrial
or colonizing nation?
2. In the latter case will the Ang-
lo-Saxon peoples of America reach the
expansion point soon enough to fill
up the South American fastnesses be-
fore they are filled by oriental migra-
tion?

The history of the New World will
have to be written as an answer to
these questions.

Herd

Magrath, May 2—The town cow
herd will commence on May 5. Mr.
Wilbur Liesham will be in charge of
the herd. The price per head will be
\$1.25 per month or \$6 for the season.
The pasture comprises almost 690
acres along the Pot Hole Creek south
of town. The town having secured a
lease on the same from the C. P. R.
The land is all fenced and the feed
will be good this summer.

At the last council meeting the
council instructed the town constable
to strictly enforce the town pound
law, therefore all animals found run-
ning at large after May 5 will be
impounded.—Lethbridge Herald.

DAM BEING BUILT ON INDUS RIVER WILL BE GREATEST IN WORLD

London—The world's largest dam,
the central unit in an irrigation
scheme so vast in its conception it
to make even Americans who are ac-
customed to gigantic irrigation and
engineering projects marvel at its im-
mensity, is being built on the Indus
river in India. American government
irrigation works in western states
such as the Roosevelt dam, seem
small in comparison to Indus river
project near Sukkar, in the province
of Sind.

The Indus dam, which will be
known as the Lloyd barrage in honor
of Sir George Lloyd, governor of
Bombay, will be nearly a mile long.
Two bridges will be built upon it, one
at a low level slightly above the al-
lignment of the river banks and the
other at a high level. The railings of
the high level bridge will be 770 feet
above the foundations, or as high as
the tower of the Woolworth building
in New York. The foundation stone
of the dam was laid on October 24,
1923, and 20,000 workers are employ-
ed, but the project will not be com-
pleted, even under favorable working
conditions, until June, 1930.

Then the work of regulating and
conserving the flow of the Indus by
means of 66 massive steel gates, each
weighing 50 tons, will be possible.
While the dam is being built another
army of workers is busy constructing
a gigantic network of canals which
will carry water over an area almost
as great as England.

Immediately above the dam seven
canals will carry the silt laden waste
of the Indus over wide areas of the
province of Sind. The Rohri canal

will be 265 miles long, with 2,300
miles or branches. The central rice
canal, 87 miles long will irrigate 500-
000 acres of the finest rice growing
land in India. Similar waterways will
radiate in all directions from the cen-
tral reservoir. Three of these canals
will be wider than the Suez canal.

When the Lloyd barrage is finally
completed, the province of Sind
through which the lower Indus flows,
expected to share the prosperity of
the Punjab, which is due mainly to
the successful irrigation of the upper
reaches of the river. Vast areas of
arid desert land will become rich
fields of rice, cotton and wheat; there-
will be large movements of natives
from the densely populated districts
of India, and the sparsely inhabited
banks for 300 miles along the lower
course of the Indus will become a hive
of industry and form another great
granary for India and the British
Empire.

The whole scheme is being financed
by the government of Bombay the
estimates calling for \$60,000,000, of
which \$17,500,000 will be spent upon
the dam.

Regular Meeting Town Council

At the regular semi-monthly meet-
ing of Macleod Town Council held on
Monday evening, May 5th, there were
present—Mayor McDonald; Council-
lors Swinerton, Day, Leather and
Stevens, and Secretary Brown.

Swinerton—Stevens—That minutes
of last previous meeting be adopted
as read.—Carried.

A communication was read from
Dr. Farnet, President of the Board of
Trade, asking that Council have a
strip plowed on the south side of the
Court House square for tree planting.
The chairman of the Works and
Property Committee was instructed
to have the matter attended to. At
that a load of earth would be placed
at Memorial Monument to be used in
flower planting.

Leather—Stevens—That Mr. Du-
bar be granted lease of that part of
Sec. 6 known as "Burns Pasture" for
the season of 1924, at a rental of
\$40.00.—Carried.

Mrs. Whipple, Mrs. Watson and
Miss Hodnett called upon the Coun-
cil as a committee from the Local
Women's Institute asking that the
cemetery be cleaned of rubbish
and generally given a better ap-
pearance. Discussion ensued. The
fact that the Board of Trade had
this matter under consideration and
would take early action.

A number of licenses applied for
were granted.
Reports of Supt. Oliver, Chief of
Police Ridley and Medical Health
Officer Kirk were received and filed.
Leather—Swinerton—That the
Council sit as a court of revision on
assessment appeals on Wednesday
June 18th, 1924, at 10 a.m.—Carried.

DRECO BRINGS COM- FORT TO MOTHER AND DAUGHTER

Edmonton Ladies Get splendid Relief
From digestive disorders And
Give The Credit To Dreco.

Here is an interesting statement
from Mrs. L. A. Coles, of 11901
Ninety-Sixth St., Edmonton, who has
tried and proved the outstanding
merit of Dreco as a health builder.

"I have been generally run down
for a long time," says Mrs. Coles
"having considerable trouble with my
stomach. I would have severe gastric
attacks after eating and a bitter
taste in my mouth. My food lay like
lead, I often had dizzy spells and was
chronically constipated as well.

"An attack of influenza left my
system weaker than ever and I had
pains through my chest, which, by the
way, have been entirely relieved since
taking Dreco. I was also troubled
with catarrh, couldn't sleep properly
and felt weak and run down.

"After other remedies had failed
I tried Dreco and it's really wonder-
ful how it has helped me. I am now
able to eat and digest most foods,
sleep better and feel stronger in
every way. My daughter has also
taken Dreco and finds its tonic
properties a splendid help."

Dreco is purely herbal and con-
tains no mercury, potash or habit-
forming drugs.

Dreco is being specially introduced
in Macleod by A. D. Ferguson, and is
sold by a good druggist everywhere.

MINERAL TAX ACT IS DIS- ALLOWED

Ottawa, May 1.—(Can. Press.)—
Reasons why the Dominion govern-
ment has disallowed the Alberta min-
eral taxation act will be tabled in
the house by Ernest Lapointe, min-
ister of justice. The reasons are co-
tained in a lengthy memorandum pre-
pared by Mr. Lapointe. It will be
tabled along with the order-in-council
under which the act is disallowed.

This memorandum states that in
the examination of the western prov-
inces, the public lands were reserved
for administration by the federal
government and therefore, the gen-
eral advantage of all the provinces
and the administration of these lands
is intimately connected with immigra-
tion, settlement, development and
revenue of the country. "It has been
a part of the policy of the adminis-
tration in disposing of Dominion
lands to reserve the minerals and for
many years the grants of homesteads
and pre-emptions have uniformly
been subject to these reservations,"
says the memorandum. It goes on to
say that, as to granted lands, where
the surface is in the grantees, the
minerals remain in the crown.

The Dominion government, it is
stated, is not taxable, but the grantee
or lessee of the minerals from the
Dominion is a general owner and tax-
able within the meaning of the Al-
berta tax. If he does not pay the tax,
in the name of a taxable person, un-
der the Alberta statute, all mines and
minerals in or beneath the surface
of the said parcel of land are the prop-
erty of the province.

Divest Dominion of Rights
In this manner the legislation
may operate according to its express
intent directly to divest the Do-
minion rights," it is set forth. More-
over, Section 10 of the Alberta bill
gives the province "the right of entry
and distress upon Dominion lands."

A large portion of the property
which is declared to be taxable con-
sists of leased estates which the
mineral holders have in lands vested
in the crown, it is stated. These are
created by grant of the leaseholds
by the Dominion government directly
to the tenant. The act assumes that
authority rests in the provincial
legislature to interfere with these
contracts to the extent of substitut-
ing the government of the province
for the tenant in every case where
the provincial minister may exercise
his power to vest in the province the
minerals which are demised.

The statute is designed to operate
so as to substitute public provincial
ownership of Dominion leaseholds for
the private or individual ownership
which is administered by the Domi-
nion in the execution of its powers as
the administrator of public lands in
the province, adds the memorandum.
In conclusion, the minister of
justice states, "the certain pro-
visions of the Alberta bill are em-

barrassing and essentially at vari-
ance with the policy of your excel-
lency's government as apart from all
other grounds, to justify and require
the exercise of the power of disal-
lowance.

Huge Gas Flow

Latest tests of the gas flow from the Rogers-Imperial well south of Lethbridge which blew in a week ago, shows the flow to exceed 62,000,000 cubic feet per day. This is said to be one of the largest gas wells in the world.

Want Alberta Coal

During the past week, a petition with signatures numbering more than 28,000 was presented to the House of Commons at Ottawa asking for government measures to ensure cheaper freight rates to make Alberta coal available to consumers in the province of Ontario.

Newsboys' Band Going Overseas

Directors of the British Empire Exposition in London have set the dates for the engagement of the Newsboys' Band of Edmonton at the Exposition for the last three weeks in July and the first three weeks in August.

Prizes for Destruction of Pests

In an effort to encourage the destruction of agricultural pests, namely, gophers, crows and magpies, the Department of Agriculture at Edmonton has inaugurated a system of prizes. Cash prizes ranging from \$1 to \$200 will be paid by the department for gopher tails, feet and eggs of crows and magpies, taken in 1924 on or before September 1st. Points will be awarded as follows: One point for each gopher's tail, two points for each crow's foot, two points for each magpie's egg.

The following are the competitors: 1. \$200 to the game protection association, league or gun club in Cal-

gary or Edmonton obtaining the greatest number of points. Over 10,000 points must be earned to qualify.

2. \$200 for the first and \$100 for the second prize to the game protection league or the gun club in places other than Calgary or Edmonton. Over 5,000 points must be earned to qualify.

3. A total of 335 prizes, from \$1 to \$75, for the residents of Alberta securing the greatest number of points. Points earned by individuals in competitions one and two will be allowed. Two hundred points must be earned to qualify.

4. The five village or rural schools earning the greatest number of points will in their order be awarded five prizes ranging from \$10 to \$70. Over 2,500 points must be earned to qualify.

5. All persons attending a separate, public or high school may compete in this. A total of 335 prizes ranging from \$1 to \$75 will be paid in their order to those obtaining the highest number of points. Points earned by any individual in competition four will be allowed. Two hundred points must be earned to qualify.

Further information on these contests may be had from Game Commissioner Lawton, Government Buildings, Edmonton.

Japan Wants Livestock

A firm of Japanese livestock dealers, headed by a wealthy Japanese of considerable prominence in Yokohama, known as the Japanese Butchers' Association, is already preparing to handle livestock shipments into Japan on a large scale. If the shipment of livestock just made from Alberta reaches Japan in good condition and if a satisfactory freight rate or cattle can be arranged, it will be a Canadian cattle chiefly. Albert's cattle, that this firm will handle.

The firm is now engaged in the erection of livestock yards and corrals at Yokohama capable of handling at least 200 head of cattle each month.

The fact of the matter is that Japanese are beginning to eat more meat, and this fact has led the Japanese firm to the action it is now taking.

It was this firm that purchased the shipment of 28 steers now on its way to Japan under the personal supervision of H. A. Craig, Deputy Minister of Agriculture. Mr. Craig is also investigating possibilities for a market for all classes of Alberta products in Japan.

SECOND FORTNIGHTLY CROP REPORT

Issued by Department of Agriculture, Edmonton, Alberta, Saturday, May 3, 1924.

Advent of warm spring weather has hastened activity upon the land in Alberta, and operations are general. Seeding of wheat in the southern districts of the province is about 50 per cent. completed, with 40 or 70 per cent. done in some localities, while in the central and northern districts seeding is well under way. In a few places in southern Alberta the new wheat is reported already above ground. Some seeding of oats has also been done in the south.

Moisture conditions for the most part are favorable, but in southern eastern localities the soil is very dry and more moisture is needed for satisfactory germination. This condition does not exist, however, over a very widespread area. Slight rains have fallen during the past week in the Medicine Hat area, and heavier rains towards Lethbridge and along the foothill areas. No fresh precipitation in the central and northern areas has been recorded since last report.

Indications are that there will be a slightly increased acreage in wheat this season, most districts reporting to this effect, while one or two districts in the north report reduced areas. The fact that very little fall plowing was done last fall makes any large increase in wheat acreage impossible.

Reports from southern districts indicate that there will be a large increase in acreage in fodder crops, particularly corn and sweet clover, Lethbridge district reporting a probable 100 per cent. increase in these crops this season.

Dates of Seeding—Dates on which seeding operations commenced this spring are reported as follows:

Medicine Hat, April 15th; Brooks, April 15th; Youngstown, April 22nd; Gleichen, April 21st; Lethbridge, April 15th; Claresholm, April 15th; Olds, April 28th; Lacombe, April 23rd; Edmonton district, April 25th; Vegreville, April 18th; Vermilion, April 28th; Grande Prairie and Peace River, April 20th.

Farm Labor—There is still a certain demand for farm labor, although not so great as at the time of the last report. The Provincial Labor Bureau has placed 4,500 men on the land this spring, an increase of more than 1,800 over the number placed last spring.

NEW U. S. MARRIAGE LAW CAUSES MUCH TROUBLE

London, May 2.—Difficulties arising from the United States law providing that women retain their own nationalities on marriage, thereby clashing with the laws of most other countries under which women assume the nationality of their husbands, were called to the attention of the commons yesterday and the home secretary, Arthur Henderson, said that he was prepared to make overtures to the United States to have the difficulty removed.

Under existing conditions a foreign woman marrying a citizen of the United States becomes a woman without a country. This makes it impossible for English girls who have married Americans and have gone to the United States to secure passports for visits to their former homes in Britain.

Twenty thousand radio licenses have already been sold in Canada to amateurs. These cost \$10 each. There are, scattered over the Dominion, forty five broadcasting stations.

Diphtheria Epidemic

Threatened epidemic of diphtheria in some districts at this time suggests the advisability of being able to recognize the first symptoms, and to know what to do until the doctor arrives to take charge of the case.

The disease first appears as yellowish or grayish-yellow spots or patches in the throat, on one or both tonsils or on the pharynx. There is usually some fever, the clinical thermometer when put in the child's mouth registering about 101 or 102 degrees. If it is simply tonsillitis the fever will be higher, probably 103 or 104 degrees.

Usually the glands of the neck below the jaw will be swollen, and it will hurt to swallow so that the child will refuse food. When a baby refuses its bottle the first thing to do is to look in its throat for patches. Many babies show no other first symptom except the loss of appetite or restlessness. No time should be lost if spots are seen. Call a doctor at once. If you do not it may mean the loss of the child.

Till the doctor comes, give the little patient two or four ounces of citrate of magnesia to flush the bowels out. Give no solid food, only milk, broth, or gruels. When baby is thirsty give ice cream or water-ices. For very young infants the food should be diluted half with water.

Keep the baby away from other children or grown-folks. If other children are exposed they are likely to come down with it any time within a week after.

Lemon Drops

To make lemon drops, boil together two cups of sugar, half a cup of water, and a tablespoon of vinegar, until it is thick, then add three table-spoons of lemon juice and boil until it crisps in water. Pour it out into a thin sheet in pans and mark into little squares when half cooled, making the marks deep enough so it will break well when hard.

Pins

The pin of ancient times was just a thorn or sharp fishbone. Then some of the plutocrats had jewelers hammer out some in gold or silver. They were not made in quantities, however, until the 16th century, and even then they were very expensive.

Nowdays, after the wire that pins are made of is reduced to the proper size and condition, the pins are made in one machine. They are not tempered or polished as needles are. After they are finished they are sorted by hand, but there is a machine to put them in the neat rows in papers in which we buy them.

The Laundry Room

Have you a separate laundry room, or do you wash in the kitchen? There are very good reasons why there should be a separate room in the house for this important part of the housework. One is that the room should be of convenient size, constructed of the right materials, and in a manner suited to its use, with proper equipment. It gives you a place to keep all the laundry utensils, and where the laundering may be done without musing up the rest of the house and making air bad by the odors, steam and dampness from the tubs and boiler. If necessary clothes may be dried in this laundry room without inconvenience to the family. But anyone who has tried drying clothes in the kitchen or living room, knows what a nuisance it is. There is always danger, too, of the clothes getting specked with soot or dust or otherwise soiled if they are hung in the kitchen or living rooms.

Rolly Polys

Here is a dainty "mother used to make". Roll pie crust very thin and cut into strips 4 in. long and 3 in.

wide. Spread them with jelly, lap the crust over and press the edges together. Brush over the top with milk and sprinkle on a little sugar. Bake fifteen minutes.

"Being 'A Lady'"

Every woman who wishes to do so may become "a lady" in every sense of the word. It requires only the cultivation of gentleness, grace, generosity, patience, usefulness, reserve—but not haughtiness or superiority. The true lady is kind and courteous to everyone, and conducts herself with a calm, unassuming grace that naturally wins the respect of those she meets. In her manners toward men she is modest and reserved. Sometimes, in the desire to be considered "a good sport" girls forget this.

CARD OF THANKS

At the Methodist Sunday school on May 4, the history of the first Sunday school was told by one of the teachers. At the close of the school, Mrs. McFadden, who has been one of the best workers in the girl's department, and who has had the senior girls for some time, was presented by the school and class with an address and silverware, on the occasion of her leaving within a week for another part of the province. At the close of the evening service the congregation was invited into the school room for an hour in a social way, and after singing many of the old familiar songs and music, refreshments were served, after which the Rev. G. D. Armstrong presented Mrs. McFadden and family with a tea set from the members of the congregation. Mrs. McFadden and family have been active workers in the church and

GOVERNOR CONVICT

Atlanta, Ga., May 2.—Two years ago Governor Warren T. McCray was a distinguished visitor to Atlanta when he attended the southeastern fair in charge of an exhibit of fine cattle from one of his Indiana farms. He departed happy with many blue ribbons. Today he is just one of more than two thousand inmates of the Atlanta federal prison. Within the brief span of 24 hours he was changed from governor to convict. The change was completed yesterday when the great iron gates of the prison clanged behind him and he became simply "No. 17746."
